Key to level of difficulty:

0 – **Simple** (No skill required just some cooperation – move with the crowd!)

1 - **Very easy** (No thought required by the natural dancer – the less able may be lulled into a false sense of security and want to attempt more difficult material).

2 - **Moderately easy** (can be picked up on the trot by the natural dancer – some concentration required by the less able).

3 - **Moderately difficult** (can be done after a quick demo by the natural dancer – some facial contortions may be experienced by the less able and a reluctance to move).

4 - **Difficult** (some concentration required by the natural dancer – moments of extreme panic followed by audible bad language by the less able).

5 – **Very Difficult** (regular practice required by the natural dancer who can still go wrong – if tricked into this the less able dancer may suffer acute mental confusion, delirium followed by madness and possibly even death).
